

Swiss Sarcoidosis
Association SSARV — AScS

- The Swiss Sarcoidosis Association SSARV-AScS was established in Rheinfelden near Basel in 1999 for persons with sarcoidosis and their families
- We are now 160 members in Switzerland having access to our website in German and French. English is under construction.

- We publish our activities and useful information for our members and the general public
- The purpose self-help groups is to facilitate exchange of information and experience among people concerned
- As the condition is complex and treatment varies according to the organs involved, conferences and discussions with specialists and other stakeholders is important.
